

AnnaLia Fraser

LEAF Charter School senior AnnaLia Fraser will be attending Keene State College in the fall.

During her time at LEAF, AnnaLia participated in two Extended Learning Opportunities at the Monadnock Humane Society. AnnaLia says “ This opportunity helped me with my decision to potentially work with animals when I am older and gave me a real feel for the shelter. I know a lot more about caring for the animals now. I loved seeing all of their different personalities. One thing that was a bit of a challenge was not getting too attached to the animals. I had to remind myself that this was a “job” and I couldn’t just take them all home”

Kerri O’Brian AnnaLia’s supervisor at the Humane Society says “Reliable and dependable, Anna quickly learned how to care for a variety of small animal species. She does an exceptional job cleaning enclosures! Our small animals have thrived in her care. It is a pleasure to have Anna at MHS!”

Not only did AnnaLia have an internship while a student at LEAF, she also balanced working at Hannaford and additional on-line courses to her course load. We know whatever the future holds for AnnaLia she will continue to be engaged and busy making a difference in her community.
