

Connor Hartman

If you could look into a crystal ball to see LEAF Charter School Senior Connor Hartman's future, you would see Connor behind a counter in the cafe that he plans to open. This is not surprising because as a student at LEAF Connor built and ran a student run cafe. Connor is a natural entrepreneur and for the last year, has been in charge of the staff, inventory, budgeting, and maintenance of the LEAF cafe.

Also not surprising, Connor's favorite memory of his time here at LEAF is making coffee in the morning. Some of Connor's favorite teachers include humanities teacher Chris Becker and founding director Dakota Benedetto. Connor enjoyed humanities because "Chris would talk about interesting topics in ways that are not traditionally taught in school." Connor appreciates that Dakota "gave me a chance at something nobody else would."
