

Natalie Anderson

LEAF Charter School senior Natalie Anderson has a lot of different interests and ideas for her future. Natalie joined the LEAF community for her senior year. Humanities teacher Chris Becker says “This student came to us determined to figure out a way to pull everything together to graduate. That determination has paid off.” Natalie’s positive, respectful nature has been appreciated by all the LEAF staff.

Whatever the future holds for Natalie, she is hoping travel will be a part of the plan. Thinking about a future career, she has a lot of different interests and would like to explore a variety of options including a jewelry making business, working at a vet clinic, bartending, and/or working at Schlotterbeck N Foss. We wish Natalie all the best in all her future endeavors.
